Certificate of Professional Internship Completion

Sungkyunkwan University

Suwon, Korea

Certificate of Completion

This is to certify that José Miguel Santos Terán, with Ecuadorian identification number 0950992305, has successfully completed a professional internship at Sungkyunkwan University.

During the internship, the student acquired knowledge in autonomous robot navigation using TurtleBot 3 with ROS 1 Noetic framework and the Gazebo 11 simulator on Ubuntu 20.04. The student utilized SLAM algorithms, mapping with Gmapping, teleoperation using keyboard, and multi-robot navigation algorithms with dynamic and static obstacle.

We conducted daily meetings with the student from February 17, 2024, to May 17, 2024, during which the student worked for 6 hours per day.

Ph.D. Nabih Pico

Postdoctoral Researcher at RISE LAB

This certificate is issued at the request of the interested party for whatever purposes they may deem appropriate.
